WORK EXPERIENCE

- Dates (from – to) 26/09/2011 – Today / Permanent contract / Full Time
- Name and address of employer Ett s.p.a.
Division: Smart-Gov Division – Genoa
Boss: Director Technical Reference and Commercial References
Software House
- Type of business or sector Software House
- Occupation or position held Software Developer / System Integrator / Technical Assistant Reference - Problem Solver / Performance Tester
- Main activities and responsibilities
Over time I have acquired skills to deal with various activities:
 - *Technical Assistant Reference - Problem Solver:*
Since 2015 I joined to the team of technical for customers assistance on projects in smart-gov to solve temporary problems (startup procedures strictly techniques, example running SQL scripts to clean up production data after a problem), in analysis of reports will cost the presence of bugs application before the start of the resolution or uncommon data extraction. Since on April in 2016 I'm the reference of this team, the responsible and organizer of the team work and I participate to the meeting of coordination with other reference's team.
Technologies / Skills: Openness in analyzing new systems, understand how they work to eventually find problems, bugs and solutions. Organize work and management team.
 - *Developer Software in Microsoft environment and System Integrators:*
C# Developer using MS Visual Studio 2015. Project cooperate with each

other in distributed environments in e-gov (smart-gov) Public Administration Structure. Mainly websites and web services (WCF) or windows service with console application on backend a projects of ladder National. The applications using DBMS MS SQL Server 2012, 2008 (R2) is 2005. I develop regularly query T-SQL and stored procedures. After the developments personally update production environments. For this project I have been involved personally in various migrations on different servers or installations of new software and data.

Technologies / Skills: T-SQL, c # (3.5, 4.6), XSLT, XSD, SOAP, WSDL, NuGet, log4net, IIS, ReSharp, SPCoop, TortoiseSVN

- *Performance Tester*

With the launch of platforms used by a high number of users, it was necessary in the company to perform more and more tasks "Stress Test" and "Profiling Test" (Tuning), after the classic "Funcional Test". I be designated like the person who could follow these activities by using the "Load Test" of "Visual Studio 2013 Ultimate Edition" before and MS VS 2015 now. I have personally implemented the architecture "MS Visual Studio - Test Controller - Test Agent " to launch massive testing from multiple machines. I also created scenarios parametrized.

Technologies / Skills: "Load Test", Jmeter , "SQL Management Studio Profiler", ProcDump

- *Java/PHP Developer and System Integrator:*

I develop, install and startup of a project based on Entando CMS in Linux with authentication provided by CAS providers. The same project includes the installation and integration of Moodle platform and Open Meetings.

The product evolved to the use Joomla CMS and I develop the integration with the other application (Moodle and OpenMeetings) with MySQL DBMS. Technologies / Skills: Java Web, Tomcat, Apache, PHP, Moodle, Open Meetings, Postgres, MySQL 5.x
